SA4550 Primary Attitude Display Instructions for update to software version 1.09

Date: November 6, 2013

Regarding: Software update to version 1.09

Introduction

This section describes the procedure to update an SA4550 to software version 1.09.

Hardware Requirements

PC with Windows 7, Vista or XP with available USB port USB to mini-USB interface cable, Sandel part number 88114 or equivalent

Upload Instructions

- 1. With power removed from the SA4550, connect the SA4550 to the PC via the USB cable.
- 2. Power up the SA4550 in maintenance mode. This is done by holding down the M and ATT TEST keys on the SA4550 while applying power. Continue to hold down the two keys until the display is visible.
- 3. If a message 'Found New Hardware' appears, follow the instructions for loading the Sandel USB driver in Appendix A of these instructions.
- 4. Record the following settings for reference purposes:

Maintenance Page 2:	PTCH CAL	
-	BALL CAL	
	FD STYLE	
Maintenance Page 7:	CAL	
-	RA TST	
	BUTTON	

5. Open Windows Explorer and locate the **Sandel_Uploader_3.07.exe** file. The default location will be in 'C:\Sandel\SA4550_Software. Double click on the Sandel_Uploader_3.07.exe file to start.

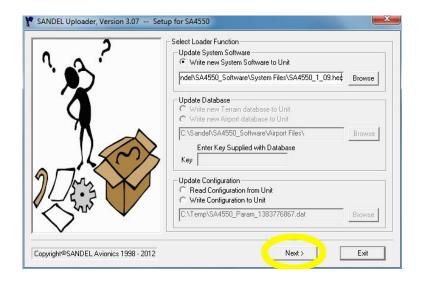

6. The Sandel Uploader Setup screen will appear. (Example below.) Select the option for '**Write new System Software to Unit**'.

2.0.	Update System Software • Write new System Software to Unit	
	21Sandel\SA4550_Software15inFiles\SA4550_1_(Browse
Č.	Update Database C Write new Terrain database to Unit C Write new Airport database to Unit	
/\ _\	C:\Sandel\SA4550_Software\Airport Files\	Browse
1×m	Enter Key Supplied with Database	
	Update Configuration C Read Configuration from Unit C Write Configuration to Unit	
	C:\Temp\SA4550_Param_1383776867.dat	Browse

 Click on 'Browse' and locate the file 'SA4550_1_09.hex. Highlight the file and click on 'Open'. The default location for this file is 'C:\Sandel\ SA4550_Software\System Files'.

Look in:	System Files	- ← 🗈 💣 -	
Name	*	Туре	hit
₹ SA4550	1_09.hex	HEX File	m Files\SA4550_1_(Browse
			nit.
			t Files\ Browse
			ase
•	III		F
File <mark>na</mark> me:	SA4550_1_09.hex	▼ Open	
Files of type:	System Files (*.hex)	✓ Cancel	376.dat Browse

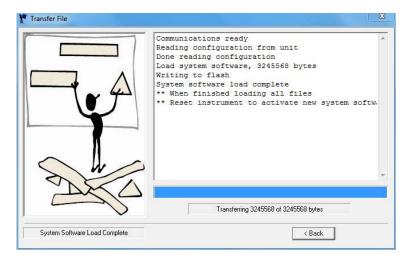

8. Verify that the file 'SA4550_1_09.hex is shown in the selection window and then click on 'Next'.

9. A message that the program is initializing communications with the unit will appear for several seconds.

10. Once communication is established, the software file will be transferred to the SA4550. Do not remove power or disconnect the cable until 'Software System Load Complete' is shown.

- 11. Close the program by clicking on the red 'X' at the top right of the program window. The USB cable can now be removed and the SA4550 powered down.
- 12. Power up the SA4550 in maintenance mode.
- 13. On Page 4, verify that the Software Rev is 1.09. On Page 11, SFTWR CRC, press the knob on the SA4550 to update the CRC codes. Verify that all fields show Pass.
- 14. Verify that the configuration and calibration settings on Page 2 and Page 7 are unchanged from the previous settings.

15. To enable the ARINC 429 attitude interface enter the key code provided by Sandel in the 'A429 Key' field on Page 2. Set the 'ATT SRC' field to '429' for low-speed or '429H' for high-speed data. Refer to Sandel SA4550 Installation Manual 82010-IM Rev. G or later for complete information.

16. Power down the SA4550 when done.

Troubleshooting

Please contact Sandel Product Support if there are any questions with this procedure:

Phone: 877-726-3357 or 760-727-4900 ext. 2 Email: <u>support@sandel.com</u>

Appendix A Sandel SA4550, SN3500, SN4500 and ST3400 USB Driver Installation Instructions

Introduction

This document includes instructions for installing the USB driver for the Sandel SA4550, SN3500, SN4500 and ST3400 which utilize a USB interface. This enables the updating of software and databases through the USB port located on the front bezel of the units.

Note: This procedure does not apply to the SN3308 EHSI as that product requires a serial interface.

Hardware Requirements

- PC with Microsoft Windows 7, Vista or XP with available USB port
- USB to mini-USB interface cable, Sandel part number 88114 or equivalent

USB Driver Installation Instructions

It is necessary to install a USB driver the first time a Sandel unit is connected to a PC via the USB interface. The procedures are slightly different for each version of Windows and are described separately on the following pages.

Windows 7 64-bit USB Driver Installation

- 1. With power removed from the Sandel unit, connect the unit to the PC via the USB cable.
- 2. Power up the Sandel unit in maintenance mode. This is done by holding down the appropriate keys while applying power. Continue to hold down the keys until the display is visible.
- 3. The computer will attempt to automatically find and install a USB driver however it will respond an error message as shown below. (SN3500 example used for illustration.) Close the window and proceed to the next step.

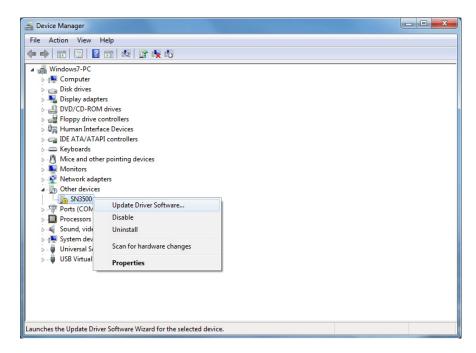

📒 Driver Software Installatio	on
Device driver softwa	re was not successfully installed
SN3500	XNo driver found
What can I do if my device	did not install properly?
	Close

4. Click on the start icon at the lower left of the desktop and type 'device manager' in the search box. Click on the 'Device Manager' program when it appears at the top of the start window as shown below.

This list will show installed driver software compatible with the device, and all driver software in the same category as the device.	

10. If a warning message appears, click on 'Install this driver software anyway'.

11. Windows will install the driver and display the message 'Windows has successfully updated your driver software' when complete. Click on 'Close' to complete the process.

Windows Vista USB Driver Installation

- 1. With power removed from the Sandel unit, connect the unit to the PC via the USB cable.
- 2. Power up the Sandel unit in maintenance mode. This is done by holding down the appropriate keys on the unit while applying power. Continue to hold down the keys until the display is visible.
- 3. A message 'Windows needs to install driver software' will appear. (Example using the SN3500 is shown below.) Click on 'Locate and install driver software'.

- 4. A message 'Windows needs your permission to continue' will appear. Click on 'Continue'.
- 5. A message 'Installing device driver software' will appear at the lower right. No action is necessary.

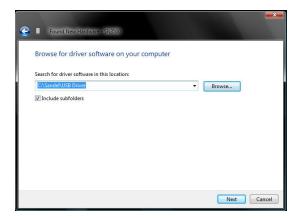

6. After several seconds, Windows will prompt to 'Insert the disc'. If the software or database was distributed on a CD-ROM, insert the CD and go to Step 9. Otherwise click on 'I don't have the disc. Show me other options.'

7. A message 'Windows couldn't find driver software for your device' will appear. Click on 'Browse my computer for driver software'.

+	Check for a solution Windows will check to see if there are steps you can take to get your device working.	
*	Browse my computer for driver software (advanced) Locate and install driver software manually.	
		Cancel

 Windows will ask for the location of the driver. Click on 'Browse' to select the folder which contains the file 'ST3400.inf'. The default location is C:\Sandel\USB Driver'. Click on 'Next'. (Note: ST3400.inf is used for all Sandel models.)

9. A warning message 'Windows can't verify the publisher of this driver software' will appear. Click on 'Install this driver software anyway'.

10. Windows will install the driver. This will take several seconds. After successful installation of the driver click on 'Close' to complete the process.

Windows XP USB Driver Installation

- 1. With power removed from the Sandel unit, connect the unit to the PC via the USB cable.
- 2. Power up the Sandel unit in maintenance mode. This is done by holding down the appropriate keys on the unit while applying power. Continue to hold down the keys until the display is visible.
- 3. A message 'Found New Hardware' will appear. (Example below.)

4. The Found New Hardware Wizard will start. Select the option 'No, not this time' and click on 'Next'.

5. Windows will ask if it should install the software automatically or install from a list or specific location. Select the option 'Install from a list or specific location (Advanced)' and click on 'Next'.

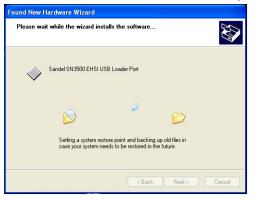

SA4550_Software_1_09_Update_Instructions_A.doc

6. Windows will ask for the location of the driver. Select the option ' Search for the best driver in these locations' and check the box 'Include this location in search:'. Click on 'Browse' and select the folder that contains the file 'ST3400.inf'. The default location is 'C:\Sandel\USB Driver'. If installing from a CD-ROM, the file will be located in the 'Sandel\USB Driver' folder. Click on 'Next'. (Note: ST3400.inf is used for all Sandel models.)

Please cho	ose your search and installation options.
Searce	h for the best driver in these locations.
	e check boxes below to limit or expand the default search, which includes local and removable media. The best driver found will be installed.
	Search removable media (floppy, CD-ROM)
~	Include this location in the search:
	C:\Sandel\USB Driver Browse
🔿 Don't	search. I will choose the driver to install.
	e this option to select the device driver from a list. Windows does not guarantee ver you choose will be the best match for your hardware.
	< Back Next > Cance

7. Windows will locate and install the necessary driver.

8. The driver has been installed. Click on 'Finish' when complete.

END OF USB DRIVER INSTALLATION INSTRUCTIONS
